Part B:

i) Paragraph (40%)

Travelling in Hong Kong is very convenient. There are many kinds of transport. Trams are cheap. However, they are uncomfortable. Buses are slow and there are a lot of people during peak hours. I hate standing for a long time so I seldom travel by bus.

Although the MTR is convenient, it is often crowded. Taxis are comfortable but they are expensive. I enjoy looking at the view so I like travelling by ferry. It is an enjoyable way to travel.

ii) Learn by Heart (20%)

1. Pollution is very serious in our city.
2. In this way, we should make less rubbish and protect the environment.
